Overview

Line-by-Line Software Solutions is solely founded and owned by Branden van Staden. Designed for clients, helping clients achieve success within their own brands and companies. Services include Web Development, Windows Application Development, Android Development, Mobile Device Development, Progressive Web Application (PWA) Development and Cloud Development. All rights to software created by **Line-by-Line Software Solutions** are recovered – anyone that commits theft or damage to hardware or software owned by Line-by-Line Software Solutions will be prosecuted.

What Personal Information Do We Collect? Depending on how you interact with our website, we may collect the following personal information about you, which we have grouped together as follows:

- Identity Data, which may include your first name, last name, and title.
- Contact Data, which may include your postal address, email address, and telephone numbers.
- Financial Data, which may include your payment card details and billing address.
- Profile Data, which may include username and password, purchases made by you, and customer service requests.
- Technical Data, which includes your internet protocol (IP) address, browser type and version, time zone setting and location, browser plug-in types and versions, and operating system and platform.
- Usage Data, which includes information about how you use our website.
- Marketing and Communications Data, which includes your preferences in receiving marketing and non-marketing communications from us.
-

How Do We Collect Personal Information? We may collect personal information about you from the following sources:

- From you, such as when you subscribe to our publications, purchase an item, request marketing to be sent to you, enter a promotion, complete a survey, or correspond with us by any means. As you interact with our website, we will also automatically collect Technical Data about your equipment, browsing actions and patterns. We collect this personal data by using cookies, server logs and other similar technologies.
- Publicly available sources, such as information that you or your organization make publicly available online.

Your Company and Brand is Protected:

Line-by-Line Software Solutions provides services to aid your Company and Brand. During design and build phase of a project each developer and team member assigned will sign a contract which will protect your Company and Brand. After the project is completed all software rights will be then transferred to the owner of the company.
